PAVE YOUR WAY TO SUCCESS

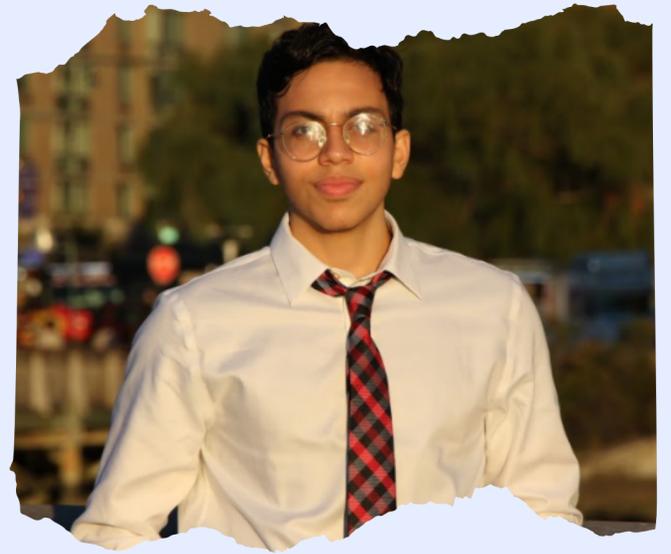

ABOUT US

PAVE stands for Peer Academic Virtual Education.

PAVE is unique from other organizations because we provide peer to peer instructional videos and educational products that will improve teens' life skills in and out of school. In addition, at PAVE all the videos are rewatchable and allows teens to study at their own pace. Thus, all of our employees are going to be able to make these videos based on their high intellectual experiences in their certain field of study.

Dear employees,

I hope you are all as excited as I am to “P.A.V.E. our way to success” this upcoming year. While it certainly was not easy to come to agreement on a final concept, I am confident we have started on the right path, especially because of the unique abilities and talents I know each of you have.

I am ready to come together with you to provide relief from college applications, instill a generation with the financial skills that they need, and inspire our peers to grow through the challenges that school, career, and life presents. This won't be possible without the continued ethic that you have shown, and I am sure with our combined passions towards our goals, nothing can stop us from growing P.A.V.E. to what we all expect and more.

“Peer Academic Virtual Education,” will only go as far as we take it. That being said, I am looking forward to “paving” the road ahead with you as we progress into the future!

Youssf Hegazy, CEO

Mission Statement

We empower young people with the skills needed to pave their way to college and career success. We do this through increasing collaborative peer to peer instruction that inspires students to accomplish their dreams.

Dear P.A.V.E.,

From the first day we started together, I knew we would be able to “PAVE our way to success!” I’m certain our company will guide millions of students and open their eyes to college and career readiness from our financial literacy, college application, and career exploration courses.

We have created a family bond already that will forever be cherished in my heart. From developing concrete solutions for better education, to debating on the best logo design, to writing a well structured business plan, I wait for our class everyday to share our laughters, ideas, perspectives, that takes Peer Academic Virtual Education as far as we take it.

I’m truly excited to continue this experience as it introduced a new meaning of work. A work that brings out our voices, our unique personalities, and most importantly our passions! As we bring in our beliefs of diversity and inclusion, of teamwork, of effective communication, our company’s workforce environment is sure to be a unique one filled with talents. Let’s continue to Persevere, Persist, and Progress at P.A.V.E.!

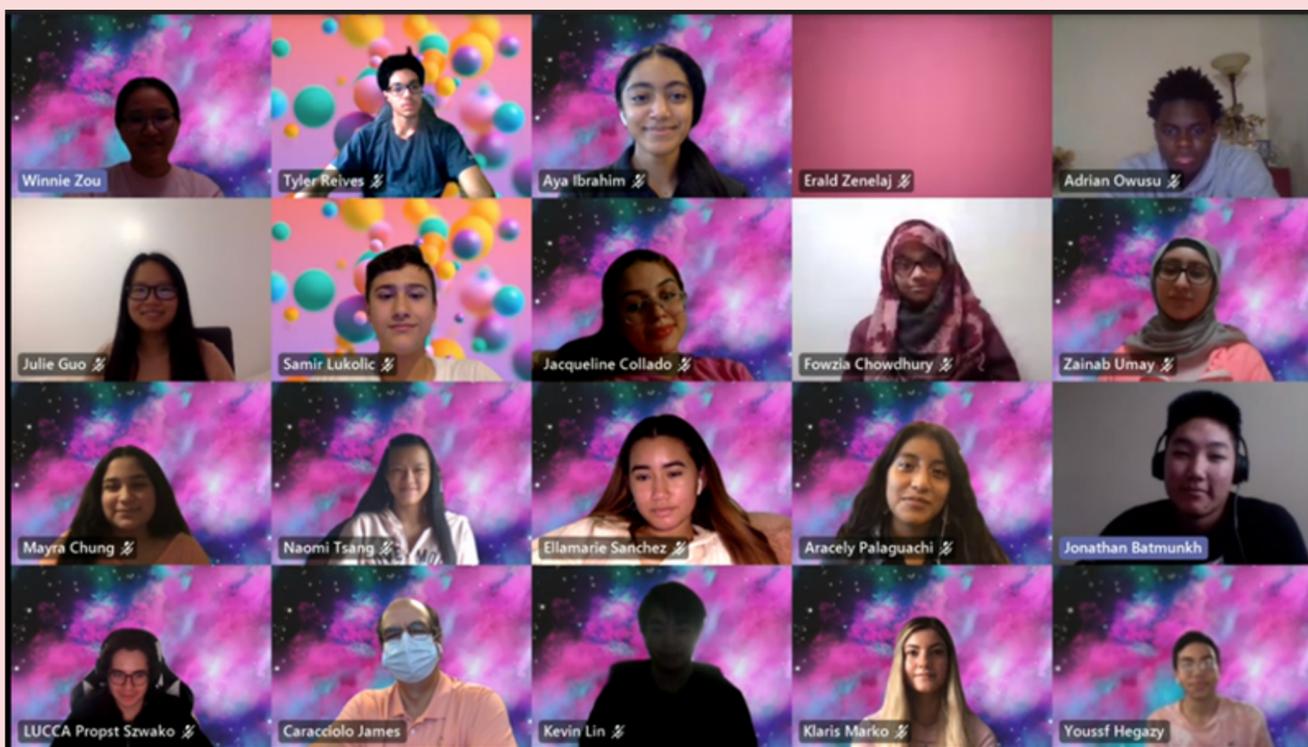

Aya Ibrahim, COO

Breast Cancer Awareness

Due to the pandemic this year, we were unable to participate in the Breast Cancer Walk located in Flushing Meadows Corona Park. Instead, we decided to show our support by wearing pink clothing, pink mask, or by making our Microsoft Teams background pink.

LOGO DESIGNING PROCESS

"The initial design that we created to bring a sense of simplicity and to showcase the overall goal of our company, which is "paving the way to success." The logo depicts a pathway that keeps people on the right track and helps them reach their ultimate goal/destination." - Faeid Hassan

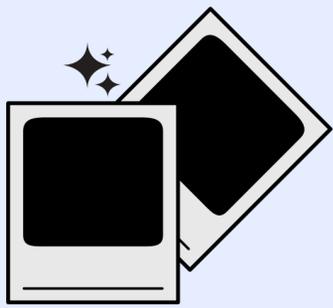

ELEVATOR PITCH

In early October, all employees took on the mission of creating and filming their own elevator pitch video. Some of us decided to partner up to create a video and others did it individually.

GOALS

The HR department asked each department to share their department and personal goals for this school year.

Community: Make meaningful contributions to our community through donation, providing services, and spreading awareness on issues through our social media platforms.

Marketing: As a team, we would work on building our bond (to have more trust in each other). This correlates to having better cooperation and continuing to be respectful to each other. Outside of V.E we will practice constant communication about our tasks, and engage in healthy discussions. By the end of the year, we should have complete trust in each other's work ethic, and contributions.

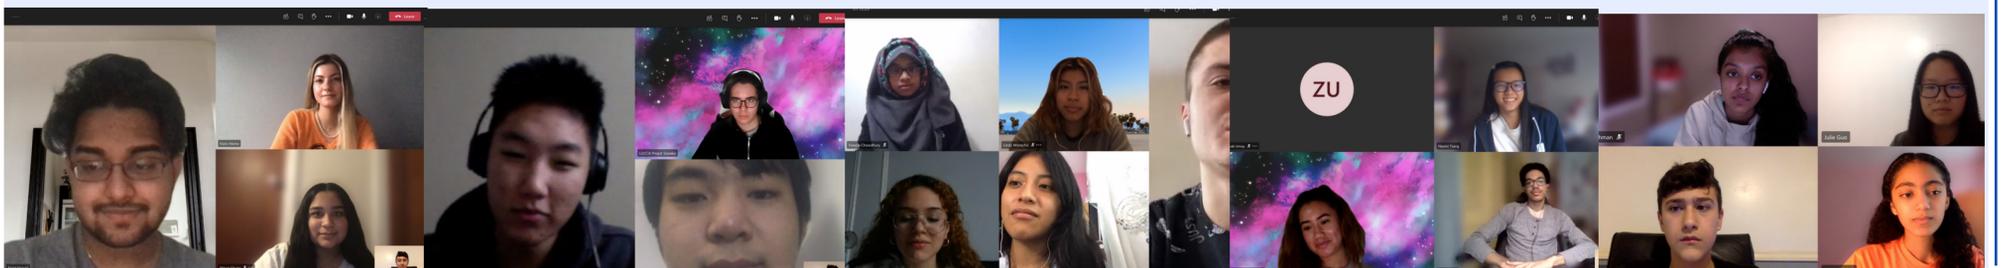

Executive: Maintain a collaborative work environment for all VE employees, which would allow them to work to the best of their ability. Consistently competitive in VE official competitions (and supervising the best possible submissions). This may translate to getting to national competitions or being in top percentile rankings. Aid employees in completing VE experience with some benefit, including but not limited to, presentation skills, leadership ability, and entrepreneurial potential.

Finance: Completing all financial documents before deadlines and keeping a close communication between the group.

HR: Maintain high morals, among all staff members, and maintain a peaceful environment.

Social Media: To work effectively to help our company be successful and to make designs that enhance the beauty of everything about our company overall.

Technology: Create a collaborative and friendly environment in the department while also efficiently getting work done throughout the year.
